Self-hiring is concentrated in some departments, absent in others
38 programs filled a third or more of their successions with their own graduates
Range expected (5th–95th percentile) if every program hired its own at the pooled 22%
Observed, one bar per program
spread wider than a common rate allows, p < 0.001
pooled 22%
47 programs (44%) never appointed an own graduate
Successions filled by an own graduate (%)
